

ORIGINAL

NEWMAN PROPOSED AMENDMENT NO. 8

0000132891

TIME/DATE PREPARED: December 13, 2011

COMPANY: Tucson Electric Power Company

AGENDA ITEM NO. 16

DOCKET NO(S). E-01933A-11-0269

OPEN MEETING DATE: December 13-14, 2011

Page 35, line 2.5:

INSERT New Finding of Fact:

"We find that TEP's current process, which requires that the final solar system owner be identified in the initial application is cumbersome and inconsistent with APS's application process. In APS's process, the solar system owner does not need to be identified until the completion certificate is submitted to the utility. We believe this makes sense and that the final system owner does not need to be identified and submitted to TEP until a completion certificate is submitted. Until that time, the application will be in the name of the homeowner."

Page 37, line 27.5:

INSERT New Ordering Paragraph as follows:

"IT IS FURTHER ORDERED that Tucson Electric Power shall not require that a final owner be identified for a system until a completion certificate is submitted."

Please renumber accordingly and make all conforming changes.
